# SAFETY DATA SHEET

Specific risk :

Replacing SDS dated :

## 1 - PRODUCT & COMPANY IDENTIFICATION

- Product name : STERI-7 Hand Sanitiser  
- Supplier : STERI-7 Reference : 07STSBM10  
Phone : +44(0)2086870567 e-mail : info@steri-7.com  
Phone emergency : +44(0)2086870567

## 2 -DANGER IDENTIFICATION :

Main dangers : This product is not listed as dangerous.  
Specific risk : *None*

## 3 -COMPOSITION / INFORMATION ABOUT COMPONENTS

This product is an LIQUID preparation  
of a chemical nature : cationic surfactant

Dangerous component :

chemical name : Didecyldimethylammonium chloride  
concentration : < 5%  
C.A.S: 7173-51-5  
EC number : 230-525-2  
Labelling : Xn 22 - C 34 (see page 3)

## 4 -FIRST AID :

In case of inhalation : Bring to fresh air. Alert a physician if breath become difficult.  
In case of eye contact : Wash immediatly with plenty of water during at least 15 min  
and consult a specialist  
In case of skin contact : Wash immediatly with water  
In case of ingestion : consult immediatly a doctor or an hospital

## 5 - IN CASE OF FIRE :

Extinguishing means : Powder, pulverise water, moss

Protection of people :

## 6 -PRECAUTIONS IN CASE OF ACCIDENTAL SPILLAGE

Individual precautions : gloves, goggles and mask  
Precautions for environmental protection : Avoid spillage in the environment. Do not spill into water drain.

Cleaning methods :

Recovery : Absord on inert powder  
Wet the remaining part with water and remove with sand

## **12 -ECOLOGICAL INFORMATION**

Information : The product is not classified dangerous for the environment

Mobility : no data

Persistence/dégradability : no data

Bioaccumulation : no data

## **13 -ELIMINATION**

Information :

Waste : *Comply with current regulation*

Emballage souillé : *preferably by incineration*

## **14 -TRANSPORTATION REGULATION**

Not regulated for dangerous materials transportation

## **15 - REGULATORY INFORMATION**

This product is not listed as dangerous, according to the 1999/45/CE directive.

## **16 -OTHER INFORMATION**

This data completes the usage instructions, but does not replace them.

This information is based on the present scientific knowledge of the product, on the date of this safety data sheet

They are given in good faith. The attention of users is drawn to the potential risks brought

by product misuse or product usage for other purposes than the intended.

It does not prevent in any case the user from knowing and applying the legislation and the rules

concerning its activity. The user will take under his sole responsibility the necessary

precautions with regard to the usage of the product.

Xn 22 = Harmful if swallowed

C 34 = cause burns
